

In the Claims

30. ~~(Cancel) The light valve of claim 9, wherein the light is generally on-axis to said first circular polarizer, said liquid crystal cell, and said second circular polarizer.~~

30. (Original) A light valve for use in direct view reflective liquid crystal displays, comprising a light source that emits non-polarized light;
a homeotropic vertically aligned nematic mode reflective liquid crystal cell;
a circular polarizer positioned between said light source and said liquid crystal cell
wherein light emitted by said light source is incident to said circular polarizer, and
wherein light reflected by said liquid crystal cell is incident to said circular polarizer.

42. (New) The light valve of claim 9, wherein the light is generally on-axis to said first circular polarizer, said liquid crystal cell, and said second circular polarizer.

CONCLUSION

If the Examiner believes there are any further matters that need to be discussed, the Examiner is invited to contact the undersigned.

If there are any other fees necessitated by the foregoing communication, please charge such fees to our Deposit Account No. 50-0959, referencing our Docket No. 109784.0001.

Respectfully submitted,
ROETZEL & ANDRESS
